

English-language friendly (ELF) modules

All subjects related to Bilingual specialties (Infant and Primary Education degrees), as well as English learning subjects (English I and II in Infant Education, and English I and II in Primary Education I and II) are taught in English. The rest of the subjects of both degrees are taught in Spanish. However, among those subjects in Spanish, some are English-language friendly, which means as follows:

Upon request, foreign students will have access to:

- The program and material of the subject in English.
- Office hours in English.
- Assessment (exams, homework...) in English.

The subjects available in English in 2019/2020 are marked with an ELF label.
